

A new puppy or kitten can fill your heart with love and happiness. Our new puppy and kitten wellness plans are designed to help you achieve and maintain proper preventive health care for your new pet and give them a great start towards a long and healthy life. Puppy or kitten vaccines, finding the right diet, parasite control, and socialization are ways we can help you with your new family member.

The first few months of your puppy or kittens life are the time when your new pet is most at risk for contagious diseases, parasites and are need of many vaccines. Regular veterinary care, vaccinations, socialization, and training advice are essential components in keeping your newest family member as healthy as possible.

Our new puppy and kitten wellness programs allow you to provide the best care for your new pet at a considerable savings.

Depending on the age of your pet's first visit, pre-paid puppy and kitten wellness plans can save you **over 25% in comparison to single visits**, and 20% on spaying or neutering, and microchip insertion.

***Spay or Neuter surgery includes basic spay or neuter surgery only, additional services such as lab work, or IV catheter will be charged out separately. If the pet is in heat or pregnant or has retained testicles additional fees will apply.**

***Spay or Neuter must be done at age 6mo but no older than 1 year**

*** Our pet wellness plans do not cover exams if your puppy or kitten is sick. If we are unable to vaccinate your pet due to illness, you will be charged a sick visit exam and will reschedule your vaccine appointment.**

Our wellness plan can be cancelled at any time. If plan is canceled, a refund will be issued for services not rendered at the price you paid for them. After cancellation all services will be billed out at regular prices. This means there are no strings attached or risks, the only risks will come when your new pet does not receive the preventive health care they need.
